

Bay Area Service Center

Our Bay Area Service Center (BASC) in Richmond, California, offers sample pickup for Bay Area clients. Just contact us to schedule a pickup, and we can be at your facility the next day. We can also provide custom sample kits and supplies for your sampling needs.

A technician, trained in sample handling and chain-of-custody procedures, will pick up your samples and transport them on ice to our service center. From there, the samples will be repackaged for overnight delivery to our laboratory in Lancaster, Pennsylvania, for analysis.

A regular pickup is one that is made anywhere within the circle area shown on the map below as long as the samples are ready by 3 p.m. Special pickups are those made after 3 p.m., on weekends or outside our standard pickup range and will be charged a rate based on time and mileage.

For your next project in the Bay Area, call Kay Hower at 510-232-8894 for your sampling supplies or to schedule a pickup.
