

SeaTac Service Center

Our SeaTac Service Center (STSC) located in Bothell, Washington, offers sample pickup, as well as sample kits and supplies, for clients in the Seattle-Tacoma Area.

A courier, trained in sample handling and chain-of-custody procedures, will pick up your samples for overnight delivery to our laboratory in Lancaster, Pennsylvania. We can pick up your pre-packed, chilled sample containers, or we will pack your samples on ice in coolers for shipping.

Our regular courier service is available anywhere within the area shown on the map below between 9 a.m. and 3 p.m. Special pickups can be arranged outside our standard pickup area or regular pickup hours and will be billed based on time and mileage.

Our Service Center is also stocked with sample containers, labels, chain-of-custody forms and custom sample kits for your sampling needs. Your project manager will process your sample container order and have it ready for delivery to your office or project site or for pick up at our Bothell location.

Contact Vince Yu at 425-419-7406 to schedule a pickup for your next project.
