Eurofins Food Safety Training provides the resources and tools needed to provide you with practical approaches that can be applied in your facilities. On-site training courses are available to facilities with a commitment to train 4 or more individuals. On-site food safety training is tailored, using specific examples as they relate to your facility and best practices used in today's industry. Course descriptions and learning objectives can be found on our website, www.eurofinsus.com/food-safety
