

**Lettuce Downy Mildew
Resistance Screening Order Form**

*Please complete this form and return to ESTA Labs with sample shipment
(Attn: Judit Monis or Laura Miles)*

Company: _____

Contact person: _____

Address: _____ City: _____ County: _____ State: _____

Phone(s): _____

Fax: _____

Email address: _____

Date Submitted: _____

Testing Information:

Our Lettuce downy mildew (*Bremia lactucae*) program screens for current pathotypes CA-5, CA-6, CA-7, and CA-8.

A minimum of **25 seeds/pathotype** is required, but we recommend you send double this amount (50 seeds/pathotype) for quality assurance purposes. ESTA will provide the necessary control lines (resistant lines and susceptible lines), but you may submit your own controls as well.

Resistant survivors can be saved and shipped to your location (if allowed by state and federal regulations) for an additional charge. Eurofins STA Laboratories does not guarantee the condition of survivors.

Other special instructions or comments:

RESULTS YOU CAN TRUST
